

Provider Name: Visa Medicals Limited

VISA MEDICALS -STATEMENT OF PURPOSE

Quality and Management -

Visa Medicals is a long-established independent healthcare facility providing Third Party Medical Examinations to individuals who require medicals for Visa purposes.

The purpose of this establishment is to offer thorough medical examinations, as detailed by the immigration authorities we work hand in hand with, in a safe, caring and well managed environment.

The Aims and Objectives of our Practice are as follows:

- To help the attending clients feel that they have a good experience at Visa Medicals, in a safe and protected environment.
- To carry out the medical examinations in a respectful, efficient and timely manner.
- To provide staff who are dedicated to exceed clients' expectations in a friendly, professional and courteous manner.
- To practice within professional, ethical and legal frameworks at all times.
- To maintain the privacy, dignity and confidentiality of patients at all times.
- To respect the individuals' religious and cultural needs with a close regard to equality and the diversity of our clientele.

SERVICES AND FACILITIES OFFERED BY VISA MEDICALS

Immigration Medicals:

The doctors in the practice are accredited to perform third party medicals for immigration purposes for those clients applying for visas to visit Canada and the United States, whilst our nurses assess their vaccination status for visa purposes.

X-Ray Services:

Under the clinical supervision of Dr Michael Rubens, Consultant Radiologist at the Royal Brompton Hospital, and his associates, our X-ray Department carries out screening chest X-rays for immigration purposes.

Our Medical Physics expert is Prof Peter Marsden, Department of Medical Physics and Biomedical Engineering, UCL Hospitals NHS Foundation Trust

Practice Team Structure:

The practice staff work very much as a team committed to serving individuals with excellence. Our practice team consists of:
